Cable & Wireless (C&W)

has been providing countries throughout the world for over 130 years with their national and international telecomms networks.

Today, C&W is licenced by the British Government to provide international public telecommunications services to the island of Diego Garcia.

Our services include International Telephone and Public Internet, TV Re-Broadcast and Paging services.

We also offer intra-island links to maritime customers, private corporate networks and international private leased services for both military and business customers.

C&W continues to invest in the network infrastructure on Diego Garcia and in our international satellite links, enabling us to offer robust, high quality and affordable communications services for both residential and business customers on the island.
